

League-Wide Online Video Training for Players and Coaches

Our online video training program allows for your league's players to track their development progress, your league's instructors to provide comments and/or video feedback to players and coaches. Your teams will now be able to stay connected to a consistent message provided by our professional instructors.

We use a state-of-the-art web-based interface powered by PSTWorldwide.com to house our interactive online video program.

Players will only be able to view videos associated directly with them and Coaches will be able to view videos associated with their team.

League directors will be able to manage and oversee their teams, its coaches and players, within the system to ensure a proper development direction.

What can your players, coaches and league directors expect from our league-wide program?

- ✓ Individual web-based accounts.
- ✓ The ability to upload video to players assigned to different teams within your organization so our instructors can provide either a written or an additional video critique of your video(s).
- ✓ Comment and ask questions among our instructors on your posted videos.
- ✓ Track your teams and players to ensure they are using the system effectively and continually pursuing proper development.
- ✓ Gain accesses to video drill work submitted by our staff and provide your coaches and players with a clear instructional direction.
- ✓ Take part in sport specific forums and learn from professionals across the country.
